

FATALITY/ LIFE THREATENING INJURY COLLISION RECONSTRUCTION AND INVESTIGATION PLAN
FREEDOM CONVOY
FEBRUARY 15 – 24TH INCLUSIVE

UNIT MANDATE & RESPONSIBILITIES:

The Collision Investigation Unit (CIU) is part of the Major Investigations branch, providing specialized response in the reconstruction and investigation of major motor vehicle collisions. Major motor vehicle collisions are classified as those resulting in the death of one or more of the involved persons, as well as motor vehicle collisions with life threatening injuries. Life threatening injuries involve those that, according to a doctor, will likely result in the death of an involved person within 30 days as a result of injuries sustained in the collision.

CIU also conducts parallel investigations on collisions where SIU has invoked their mandate. The unit is also tasked with Fail to Remain/ Fail to Stop incidents that occur on highways.

CIU may attend a major collision scene at the request of a Partner Agency, contingent upon meeting our usual threshold (ie a collision where a reconstruction report is required) provided approval by OPS Executive has been obtained.

DEPLOYMENT STRATEGY:

Major collisions meeting threshold require the deployment of a CIU team consisting of investigator(s) and reconstruction specialist(s). Resource requirements are determined on a variety of factors including, but not limited to scene location, environmental factors and scene complexity.

Regular Business Hours - During regular business hours (0700-1500), contact the MAL x2481 or in person at room 030 Elgin; or on call resource (contact information noted below).

After Hours – CIU has a Call Out schedule in place to ensure response coverage 24 hours, 7 days a week for incidents that meet threshold. Contacting on call should only be in relation to dynamic/ active incidents that require immediate action/ attendance of CIU off duty resources.

Regardless of whether the incident occurs during or outside of regular business hours the on-scene NCO should ensure the following, (and specifically prior to contacting the On Call designate after hours):

- 1) having confirmed motor vehicle collision has resulted in death or life-threatening injury (as outlined above) and
- 2) Incident Commander/ designate has been made aware of the details of the collision and
- 3) Incident Commander/ designate has approved call out of off duty resources
- 4) SIU: aforementioned steps + advise CIU whether SIU has invoked, name and contact information for Inspector on scene
- 5) Scene should be secured until CIU advises otherwise

Regardless of whether the incident occurs during regular business hours or in the instance of Call Out, the following information should be provided by the on-scene NCO to CIU member:

- Incident number
- Incident location
- On scene NCO – name and contact number
- Advisory of any on scene arrest(s)/ suspect(s) in cellblock
- Incident details
- Condition of patient(s)
- Updates to the aforementioned as obtained

In addition, the on-scene NCO should be prepared to answer any further questions as required.

On Call Schedule Feb 16 – 24 (inclusive):

Wed 15 Feb – Thurs 17 Feb:	REDACTED
Friday 18 Feb – Sun 20 Feb:	REDACTED
Mon 21 Feb – Thu 24 Feb: T	REDACTED
